Portfolio: lopamudra-webdeveloper.github.io/resume

PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 17+ years of web development experience (since 2008), including 8+ years specialising in PHP, WordPress, WooCommerce, and CodeIgniter. Builds and ships AI-powered web applications end to end using the Google Gemini and Anthropic Claude APIs, retrieval-augmented generation (RAG), Progressive Web Apps, and serverless functions. Strong in custom WordPress theme and plugin development, REST API design and third-party API integration, payment gateways (Stripe, PayPal, Razorpay, ACH, Plaid), MySQL, and Core Web Vitals performance optimisation (Google PageSpeed 30 to 87 on a live production site). Former Team Lead of 5 to 6 developers delivering for clients in the UK, US, Israel, and Italy. Experienced in remote work with international clients; seeking a remote full-stack developer role.

TECHNICAL SKILLS

Languages: PHP 8, JavaScript (ES6+), SQL, HTML5, CSS3, jQuery

Back End and Frameworks: Core PHP, CodeIgniter, MVC architecture, Smarty, REST API development, Python (FastAPI, APScheduler), serverless functions (Netlify, Cloudflare Workers)

Front End: Responsive web design, Progressive Web Apps (PWA), Service Workers, IndexedDB, ES modules, Bootstrap, Web Speech API

CMS and WordPress: WordPress, custom theme development, custom plugin development, Gutenberg, ACF Pro, Gravity Forms, WordPress REST API, Multisite, WPML, Elementor, Divi, WPBakery

E-Commerce and Payments: WooCommerce, custom checkout, WooCommerce Memberships and Subscriptions, Stripe, PayPal, Razorpay, PayU Money, ACH, Plaid, recurring billing

Databases: MySQL, MySQLi, database schema design, query optimisation, phpMyAdmin

AI and LLM: Google Gemini API, Anthropic Claude API, RAG, OCR with vision models, prompt engineering, prompt-injection safeguards, model fallback and rate-limit handling, AI-assisted development (Claude, ChatGPT)

Cloud and DevOps: AWS, Google Cloud Platform (GCP), Cloudflare, Netlify, GitHub Pages, WP Engine, cPanel, Git, GitHub

Performance and Security: Core Web Vitals, page speed optimisation, caching, security hardening, Sentry, Google Tag Manager

Practices: Agile/Scrum, code review, team leadership, mentoring, requirement analysis, technical documentation, client communication

PROFESSIONAL EXPERIENCE

Independent Full-Stack and AI Application Developer | Self-employed

Remote, India | Sep 2025 to Present

- Designed, built, and shipped six production web applications as a solo full-stack developer, owning architecture, data model, back end, front end, hosting, and Android packaging.
- Built Study Buddy, an offline-first AI tutoring PWA (about 11,000 lines of modular JavaScript, 19+ releases) with Gemini vision OCR, RAG answers that cite textbook pages, AI answer marking, voice Q&A, and exam-paper generation, running at zero hosting cost.
- Built Mann Saathi, a trilingual (English, Hindi, Odia) emotional-support PWA on the Claude API via Netlify serverless functions, with crisis-phrase detection and helpline escalation.

- Built JobPilot, a chat-first AI job-hunting web app (Python, FastAPI) that parses resumes, scores job fit and ATS match, tailors resumes and cover letters per job, and runs scheduled job hunts, with an admin dashboard and Docker/Render deployment.
- Built OlympiaVerse, a PHP 8 and MySQL exam-prep platform on a custom zero-dependency MVC framework with Razorpay payments, plus three offline PWAs using the Web Speech API.

Senior WordPress Developer | SunTec

Delhi, India | Nov 2024 to Sep 2025

- Delivered enterprise WordPress and PHP solutions for global clients, owning technical design through deployment.
- Developed custom themes and plugins to specification, replacing page-builder dependencies with maintainable, standards-compliant code.
- Led performance optimisation and REST API integration work across multiple client platforms.

WordPress Developer | Navoto

Uttar Pradesh, India | Nov 2023 to Nov 2024

- Built custom WordPress solutions across e-commerce, real estate, and e-learning for international clients.
- Maintained and optimised high-traffic production websites for performance, uptime, and scalability.
- Integrated third-party APIs and payment gateways including Stripe, PayPal, ACH, and Plaid.

Web Developer | Onviqa

Surat, Gujarat, India | Jul 2023 to Oct 2023

- Delivered short-cycle projects across WordPress, CodeIgniter, and custom PHP.

Senior Web Developer / Team Lead | cmsMinds

Ahmedabad, Gujarat, India | 2020 to 2022

- Led a team of 5 to 6 developers, owning sprint planning, code review, mentoring, client coordination, and delivery.
- Directed concurrent WordPress projects with custom plugin architecture and REST API development.
- Served as primary technical contact for international clients, turning business requirements into technical specifications.
- Improved Google PageSpeed score from 30 to 87 on a client advertising platform through Core Web Vitals optimisation.

Full-Stack PHP Developer | Hepta Infotech LLP

Rourkela, Odisha, India | 2010 to 2020

- Developed full-stack PHP applications with WordPress and CodeIgniter for education, real estate, non-profit, and e-commerce clients.
- Built multi-language and multi-currency solutions, custom user-role systems, and MVC applications with Smarty templating.
- Designed custom WooCommerce checkout flows, membership systems, and payment gateway integrations.

PHP Developer | Stratycon Technology

Bangalore, Karnataka, India | 2008 to 2010

- Developed web applications and internal tools using PHP and MySQL.

KEY PROJECTS

- **Study Buddy (flagship):** Offline-first AI tutor PWA. JavaScript, IndexedDB, Service Worker, Gemini API, RAG, Cloudflare Workers proxy with origin allowlist and per-device cap, Google Apps Script licensing, Android APK via PWABuilder.

- **JobPilot:** Chat-based AI job-hunting assistant: resume parsing (PDF/Word), Fit % and ATS scoring, per-job resume and cover-letter tailoring (Word export), scheduled daily/weekly auto-hunts via APScheduler, multi-user auth with admin usage dashboard. Python, FastAPI, Claude/Gemini APIs, JSearch and Adzuna job APIs, Docker, Render. github.com/lopamudra-webdeveloper/jobapply-ai
- **OlympiaVerse:** Full-stack Olympiad exam-prep platform with auth, dashboards, timed mock exams, admin panel, Razorpay, analytics. PHP 8, MySQL, custom MVC, PSR-4 autoloader. github.com/lopamudra-webdeveloper/olympiaverse
- **Gryffan (gryffan.com):** Leasing platform with Equifax and Zillow integrations, Stripe, ACH, Plaid, PayPal payments, e-signature, PDF generation, and a reusable internal property-data API. WordPress, Gravity Forms, MySQL.
- **AutoWranglers:** Vehicle resale marketplace automating VIN validation via Peddle, NHTSA vPIC, RegCheck, and AutoCheck APIs, with leads piped to Drip and ActiveCampaign; Sentry and GTM instrumentation.
- **PlatePlus (plateplus.co.uk):** Interactive UK number plate builder with real-time preview, legal-compliance validation, and WooCommerce dynamic pricing.
- **Seven Plus (seven-plus.org.il):** Non-profit psychological care platform with four user roles, therapist approval workflows, and needs-based patient assignment. WordPress, ACF, custom roles.
- **Navitae (navitae.com):** Subscription wellness platform with a custom Cron-driven recurring payment engine on PayU Money. WooCommerce Memberships, Mailchimp.
- **Other PWAs:** Speech Buddy, InstantDash, Multiplication Adventure, Mann Saathi: offline PWAs at github.com/lopamudra-webdeveloper.

EDUCATION

B.Tech in Information Technology | Silicon Institute of Technology, Odisha, India
